Waibhav Mehta

Developer · Tech Enthusiast · IoT Executive

Inurawa, Sunsari, Nepal · April 2026 – Present at Sovryx Tech

PROFESSIONAL SUMMARY

Motivated IT student and IoT Executive with hands-on experience in web development, cybersecurity, embedded systems, and IoT. Passionate about building practical solutions that bridge software and hardware. Currently delivering IoT training programs and contributing to R&D at Sovryx Tech Pvt. Ltd., while pursuing a Diploma in Information Technology under CTEVT.

EXPERIENCE

IoT Executive

Apr 2026 – Present

Sovryx Tech Pvt. Ltd. · Biratnagar, Nepal

- Deliver weekly IoT training to school students in collaboration with ASRO — an academic institute for science and technology.
- Contribute to internal IoT R&D; and client-based project development.
- Handle curriculum planning and hands-on lab coordination for student cohorts.

EDUCATION

Diploma in Information Technology

2024 – Present

Manmohan Memorial Polytechnic · CTEVT · 4th Semester

Secondary Education Examination (SEE)

2080 BS / 2023

Everest Secondary School · GPA: 3.49 · Appreciation Award

PROJECTS

RFID-Based Attendance System

Arduino C RFID

Built an RFID-based attendance & identification system with real-time data logging and automated tracking.

Smart Obstacle Avoiding Car

Arduino UNO Ultrasonic Sensor C

Autonomous car with ultrasonic-based obstacle detection and self-navigation logic.

Evil Twin Attack Demo

Kali Linux ESP32 Networking

Cybersecurity demo: fake WiFi AP with captive portal phishing, built without an external wireless adapter.

WhatsApp AI Agent System

Node.js Ollama JavaScript

Dual-mode AI agent on WhatsApp using a local LLM via Ollama and Node.js routing layer — submitted as formal college proposal.

Gesture-Controlled 3D Voxel Editor

Python OpenCV MediaPipe

Iron Man-inspired 3D voxel editor driven entirely by real-time hand gesture recognition.

Home Server on Android

Termux Tailscale Filebrowser

Personal remote server using Oppo A83 + Termux, accessible globally via Tailscale — zero cost, zero cloud.
