PROFILE

Passionate and highly motivated Information Technology student with hands-on experience in web development, cybersecurity, AI systems, IoT technologies, Linux-based operating systems, and computer hardware. Skilled in building real-world projects using Python, PHP, Node.js, and embedded systems.

EDUCATION

Manmohan Memorial Polytechnic

Diploma in Information Technology (4th Semester)

Budhiganga-4, Morang

Everest Secondary School

SEE Passed with 3.49 GPA

Biratnagar-5, Morang

WORK EXPERIENCE

IoT Executive — Sovryx Tech Pvt. Ltd.

Worked on IoT systems, Linux environments, and practical implementation projects.

SKILLS

- HTML / CSS / JavaScript
- PHP
- MySQL
- Python
- Java
- Cybersecurity
- IoT
- Linux
- UI/UX
- DSA
- cPanel
- Communication

PROJECTS

WhatsApp AI Agent System

Dual-mode AI system integrated with WhatsApp using Ollama and Node.js.

Evil Twin Attack Demonstration

Cybersecurity project demonstrating fake WiFi access point attacks.

Gesture-Controlled 3D Voxel Editor

3D editor controlled through real-time hand gestures using OpenCV and MediaPipe.

IoT Smart Door Security System

Biometric IoT security system using face recognition and fingerprint verification.

LANGUAGES

English, Nepali, Hindi, Maithili

HOBBIES & INTERESTS

Photography, Exploring Tech Gadgets, Learning New Technologies, Video & Photo Editing
